Re: **DOMINICAN REPUBLIC ACTIVITIES**

PERSONAL AND ~~CONFIDENTIAL~~

Dear Sir: Attention: Assistant Director S. J. Tracy

Enclosed are telegraphic messages numbered 1 to 4 inclusive, some of which are in plain language and some in code, which are to and/or from the **Dominican Republic Consulate in San Francisco.**

With regard to those in plain language, it is requested that this office be furnished with two copies on onion skin paper of complete translations and that a separate sheet be used for each message if practicable. It will be noted that they are numbered chronologically. It is requested that the translations be numbered to conform with the message enclosed herewith.

With regard to those in code, it is requested that the Bureau attempt to furnish decodes to this office in the same manner as outlined above with regard to those in plain language. In addition, in the event it is found such messages cannot be decoded, it is requested that the messages be copied as they are and that copies of the messages in code be returned as outlined above. This additional request is made at this time for the reason that the Bureau may be in a position at a later date to decode such messages and furnish plain language text to this office. At such time the coded copies returned to this office will be destroyed and the plain language messages inserted numerically in our message file. In this way we will be able to examine a complete file of these messages over a long period of time and when considered with other information already available, develop a more accurate picture of the espionage activities, if any exist, with regard to these persons in this Field Division.

If any plain language messages in the English language are included in the enclosures, it is requested this office simply be supplied with two copies numbered to conform with the enclosures.

It is my thought that the above plan will not only supply this office with a complete message file regarding these persons as mentioned above but that the originals retained in the proper Bureau files will, when correlated with other information already there, be of considerable value to the Bureau in combatting espionage in this country, in supplying various Field Offices with investigative material, and possibly in connection with certain other activities.

My dear Mother:

Monday I wrote to you and today I do so again, as usual, so that you will always receive news from me. I had not received a letter from you since the week before I left, but yesterday I had the great pleasure of receiving your letter of the 1st and also one from Maria of the 3rd. From my former letters you have probably informed yourself that I made quite a trip - comfortably.

About what you tell me of the picture in the newspaper, I shall tell you that I do not believe it was my picture, because I came out fairly well. We were at a table with Don Plinio and Don Anibal and their respective wives. That is the picture that I have here, and that is the one which Jose bought for me, one can see that the ones that were sent to the newspaper were others.

The address of Marie, your intimate friend is 200 W. 106 St. Dulce told me they had moved, but they are still on the same street. Now I do not dare send Dulce a postcard because I don't want them to say that I don't send them one when they live on the same street.

Put baking soda on the urticaria so that it will go away, I am happy to hear your stomach is better.

Sunday we went on a trip to one of the beaches of the Pacific, which is a very beautiful and pleasant place.

We are getting used to this climate a little - here it is very cool - almost cold.

I suppose you are delighted with your Juan Manuel, as a companion. Victor and the little girl are well and happy.

Embraces from your daughter,

s/ Caridad

Dear Mary,

I received your letter dated August 21 while I was in New York and yesterday I had the pleasure of receiving another letter from you dated Sept. 3, both have filled me with happiness for when I receive letters from you I feel a great satisfaction because I imagine I am seeing you and conversing with you. The letter of the 21st I did not answer as soon as I would have liked because you can imagine all we had to arrange and above all waiting for the money for the trip in order to be able to set a date, but thanks to God we were able to fix everything all right and we had a very pleasant trip. We started the 3rd. at night, about 11:40 and we reached Chicago the next day at about 8:00. This is a city that we could not go over because of the scarcity of time, we only had time to have supper. From one look it appears to be full of large buildings and factories very similar to New York. We continued after a short while and all the way there were yellow daisies on both sides of the train on which we were on. It was comfortable - for it was a Pullman - with its wash bowl and water closet in the compartment and we had two of them with twin beds in each. We took off the dividing wall and made a single large room with double service. It hardly moves and the way is beautiful. We spent the night before our arrival in Reno, the city of divorces, where everybody from here goes to get a divorce. It is very pretty and full of colored lights. We did not go through Los Angeles or Hollywood for it was too far South and nine hours from here on the train. It is exactly one week since we arrived here and we first went to a hotel, but it was extremely expensive and we were able to obtain this "flat" as they are called here. It is one floor on a calm and picturesque place, except that the city is full of hills, which I wish were like those of Sanchez. This flat is on one of them, but the house is well furnished and very comfortable and well repaired. It has three apartments, one for us, one for the boys and another for Esther, whom we also brought in spite of the expensive fare, but it is a great advantage to have her in the house for everything.

ENCLOSURE

15-43317-3

The city is beautiful, in spite of its hills; it is full of all of the most beautiful gardens that may be seen. You would like the climate; in New York it was 90° when we left, and here one has to almost always wear a coat although it may be light. The day we arrived here the weather was 50 degrees plus and we had to get out coats, but it is very agreeable and beautiful and it does not snow as it does in New York. Sunday we went to the coast of the Pacific with only five cents on the trolley from the corner and changing twice we reached there. There is a beautiful beach and many restaurants around this place. The Cliff House has all the interesting articles that may interest tourists. Thanks to God we had a nice trip and we have already spent these first seven days well. Don't you worry much because here life is normal and one does not even remember that there is a war going on or that there is darkness, and besides God is everywhere. Victor has almost gotten rid of his sun-burn. I bought that cream for him, because in this vicinity that color is very provoking.

In your next to the last letter you told me about, but this time you do not tell me anything about Consuelo's boy-friend. It has been a surprise for me, because mother doesn't tell me any of those things. I received the novena of the Virgin and the birthday greeting you sent me. Both passed under the door. Ruca is a young lady - very haughty and overly attached to her father, whom as you know is weak when anything concerns her, and she is very sweet and loving and all her love is for you and her grandmother, whose birthday I did not forget.

Regards to Juan.

Your aunt embraces you,

s/ Caridad

Re: Spanish Matters

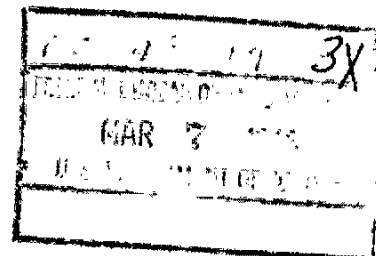

During a telephone conversation with SAC S. K. McKee he advised [redacted] he had obtained information from another government agency which he said was reliable that the Spanish were coding information as if to transmit it by cable but these messages were then turned over to the Dominican Republic legation for recoding and transmission to the Dominican Republic. At that point they are decoded and resubmitted to Spain by courier or cablegram.

Since this may possibly be the avenue through which information is being transmitted to Spain by the Spanish representatives here we will make a thorough examination into it here in the Laboratory.

Re: **DOMINICAN REPUBLIC COUNTER ESPIONAGE ACTIVITIES**

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers **6** to **7**, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of **Dominican Republic consular representatives in this Field Division.**

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code bear our numbers -- .

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

With regard to those in English, copies have been made and retained in confidential files in this office. The attached copy is for the Bureau's information.

It is my thought that the above plan will not only supply this office with a complete message file regarding these persons as mentioned above but that the originals retained in the proper Bureau files will, when correlated with other information already there, be of considerable value to the Bureau in combatting espionage, in supplying various Field Office with investigative material, and possibly in other ways not now apparent.

MEMORANDUM FOR Mr. TRACY

Re: Dominican Republic
Diplomatic Code

Reference is made to intercept number 94565 received from the Federal Communications Commission under date of November 10, 1942 for examination in connection with the above-entitled case.

This intercept contains one message transmitted in five-letter groups, addressed to LEGALON LIMA which is apparently the Dominican Legation in Lima and signed ESTADO.

A solution of the above-mentioned message was effected in the laboratory and it was found that polyalphabetic substitution cipher with the use of the Spanish language was employed. The translation of the decipherment of this message is set forth on the attached sheet.

As additional decipherments are effected or information received in this case, your office will be advised.

Intercept 94565 is being retained in the laboratory's code and cipher file.

Respectfully,

E. P. Coffey

Re: Dominican Republic
Diplomatic Code.

Transmitted herewith is the translation from the Spanish of the decipherment of a message pertaining to the above-entitled group. This message was received from Cable Censorship under date of December 17, 1942.

The message was addressed to LEGADOM, MADRID which is apparently the Dominican Legation in Madrid and signed ESTADO.

Solution of this message, designated as serial number 4100, was effected in the laboratory and disclosed that the system used was polyalphabetic substitution cipher employing five alphabets. In the messages deciphered to date different key words have been used to control the five alphabets.

The original copy of this message is being retained in the files of the laboratory.

There are attached hereto the translations from the Spanish of the decipherments of five cable messages received in the Laboratory through the Washington Field Office in connection with the above entitled case. The date, origin, and designation of each message according to each translation.

Polyalphabetic substitution cipher with the use of five alphabets was employed in these messages as in previous messages deciphered in the Laboratory. The four messages transmitted on the same day (December 21, 1942) were deciphered with the use of alphabets controlled by the same set of five-letters.

In messages transmitted to or from Washington, D. C. and Trujillo, Dominican Republic, a partial alphabetical progression in the five-letters controlling the alphabets had previously been noted in the substitution cipher utilized. This progression is evident in the instant messages and changes occur daily.

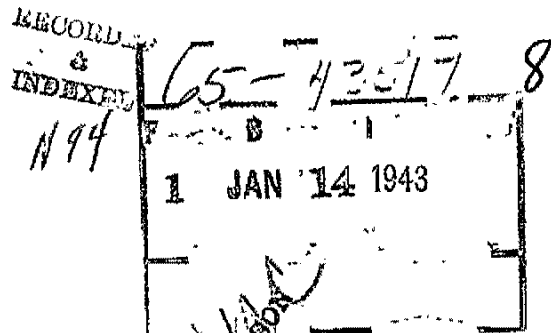

The original messages transmitted, intercept numbers 9895 through 9899, are being retained in the Laboratory's code and cipher file.

MEMORANDUM FOR MR. COFFEY

RE: DOMINICAN REPUBLIC DIPLOMATIC CODE.

There are attached hereto the translations from the Spanish of three messages received in the Laboratory under the dates of December 30, 1942 and January 1, 1943 from the Washington Field Office and Cable Censorship for examination in connection with the above-entitled case.

These messages appeared on intercepts numbered 9361, 10540 and 10541 and decipherments revealed that poly-alphabetic substitution with the use of five alphabets was employed in the enciphering process. The message on intercept #9361 addressed to Estado, Trujillo, Dominican Republic, which was sent from Legadom, Madrid, which is apparently the Dominican Legation in Madrid, used a key word to control the five alphabets and was identical to the key word used in a message transmitted to Madrid from Trujillo, Dominican Republic on November 26, 1942. Inasmuch as the messages to or from Washington, D. C. and Trujillo, Dominican Republic continue to use a partial alphabetical progression as previously exhibited in messages between these two points it appears that communications between Trujillo, Dominican Republic and any other fixed point, such as Madrid, Washington, D. C., etc., employ a set of alphabets which are used only between those two particular locations. As additional messages are deciphered your office will be advised.

The original messages submitted, intercept number 9361, 10540 and 10541, are being retained in the Laboratory's Code and Cipher file.

Respectfully,

W. G. Blackburn

MEMORANDUM FOR Mr. Coffey

RE: Dominican Republic
Diplomatic Code

There are attached hereto the translations from the Spanish of the decipherment of eight messages received in the Laboratory through the Washington Field Office for examination in connection with the above-entitled case. These messages were transmissions to or from Washington, D. C. and Ciudad, Trujillo, Dominican Republic.

Decipherment of these messages disclosed that substitution cipher with the use of five alphabets was being employed. As in previous messages between the above-mentioned locations a partial alphabetical progression was noted which changes on successive days and controls the five alphabets.

The original intercepts, numbers 12041 through 12043 and 13419 through 13423 are being retained in the Laboratory's Code and Cipher File.

MEMORANDUM FOR Mr. Coffey

RE: Dominican Republic
Diplomatic Code

There are attached hereto translations from the Spanish of the decipherment of seven messages which were received in the Laboratory through the Washington Field Office in connection with the above-entitled case.

As in previous messages deciphered, a system known as poly alphabetic substitution cipher with the use of five alphabets was employed in these messages. It was noted in two instances that different messages transmitted on the same day were decipherable with the use of the same set of five letters controlling the five alphabets. Apparently no key word was used in this regard in these particular messages although a partial alphabetical sequence was noted which may be entirely clarified as additional messages are solved.

The original messages submitted, intercept numbers 5974, through 5976, 6822, 6824, 7601, 7761 and 7762 are being retained in the Laboratory's Code and Cipher File.

There are attached hereto the translations from the Spanish of the decipherments of two messages received from the Federal Communications Commission and Cable Censership. These messages appear on Intercept Numbers 17207 and 18029 and are addressed to Legadom, Madrid (apparently the Dominican Legation at Madrid) and President Trujillo, Trujillo, Dominican Republic respectively.

Decipherment of these messages disclosed that polyalphabetic substitution cipher with the use of five alphabets was employed. Your office will be advised as additional messages are deciphered.

The call letters LSR appeared on radio intercept #17207 and, although these call letters do not appear in the lists available in the Laboratory, are the call letter designation for Argentina. It was also noted that this intercept was marked as unfinished.

The original messages submitted, numbers 17207 and 18029, are being retained in the Laboratory's Code and Cipher file.

There are attached hereto the translations of the decipherments of two messages received in the Laboratory under date of January 19, 1943 through the Washington Field Office for examination in connection with the above-entitled case. These messages were transmissions from Ciudad Trujillo, Dominican Republic to Washington, D. C.

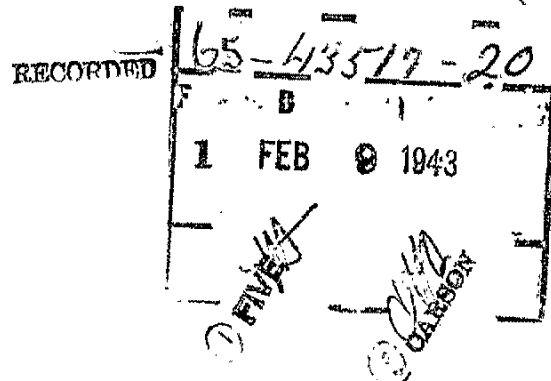

Decipherment of these messages disclosed that polyalphabetic substitution cipher, using five alphabets, was the system employed. As in previous messages between the above locations a partial alphabetical progression was noted in the letters which control the five alphabets. As additional messages in this case are deciphered your office will be advised.

The original messages submitted, numbers 16635 and 16636 are being retained in the Laboratory's Code and Cipher files.

MEMORANDUM FOR MR. COFFEY

Re: DOMINICAN REPUBLIC DIPLOMATIC CODE.

There are attached hereto the translations from the Spanish of the decipherments of three messages received in the Laboratory under date of February 3, 1943 through the Washington Field Office for examination in connection with the above-entitled matter. These messages were transmissions to or from London and Ciudad Trujillo, Dominican Republic.

It was noted that the decipherments obtained in the Laboratory agreed with the plain text appearing on each intercept except for minor details which may be attributed to typographical errors. As additional decipherments are effected, your office will be advised.

A copy of this memorandum with attachments, is being forwarded to the Washington Field Office.

The original messages submitted, intercepts 20497 through 20499, are being retained in the Laboratory's code and cipher file.

Re: *Diplomatic Code*
**DOMINICAN COUNTER ESPIONAGE
ACTIVITIES**

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers 10 to --, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of representatives of the Dominican Government at San Francisco, California.

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code, bear our numbers --.

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

With regard to those in English, copies have been made and are being retained in confidential files in this office. The attached copy is for the Bureau's information.

Yours truly,

Re: DOMINICAN REPUBLIC COUNTER ESPIONAGE ACTIVITIES

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers 11 to 2, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of representatives of the Dominican Republic Government at San Francisco.

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code, bear our numbers --

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

With regard to those in English, copies have been made and are being retained in confidential files in this office. The attached copy is for the Bureau's information.

Yours truly,

Subject:

Previous information has reported that the subject has left El Salvador and has proceeded to Guatemala where he will stay a short time in accordance with the desire of his Government that he spend a short time in all of the Central American republics inasmuch as he is the Minister of the Dominican Republic in Central America.

It has been recently reported, however, that E. Cesar Tolentino has been advised by his Government that he should spend only the time absolutely necessary in the capitals of the Central American republics for the presentation of his credentials and should proceed to San Jose, Costa Rica, at the earliest possible date.

EXPORTATION LICENSES AND PRIORITIES ALREADY OBTAINED FOR AGRICULTURAL EQUIPMENT HAVE BEEN TEMPORARILY SUSPENDED ON THE SUGGESTION OF THE STATE DEPARTMENT IN VIEW OF INFORMATION TRANSMITTED BY AMBASSADOR WARREN THAT THEY HAVE NOT BEEN ABLE TO REACH AN AGREEMENT THERE CONCERNING THE CONTRACT FOR PURCHASE OF SURPLUSES AND FURTHERMORE BECAUSE OUR ENGLISH AGENT WHOSE CAPACITY IS UNKNOWN BY THE DEPARTMENT AND BRITISH AUTHORITIES HERE IS ALSO MAKING PURCHASES. I HAVE BEEN INFORMED THAT AS SOON AS A SETTLEMENT IS REACHED AND A MONOPOLY ON THE PURCHASES IS CONCEDED TO THE AMERICAN GOVERNMENT THE LICENSES WILL BE REVALIDATED. IN AN INTERVIEW TODAY WITH PEARSON OF THE EXIMBANK (HE SAID IT WOULD BE IMPOSSIBLE) TO EXTEND THE TWO MILLIONS CREDIT FOR THE PURPOSE OF FINANCING (CUBAN) SOWING BECAUSE OF THE POLITICAL OPPOSITION OF THE FARM BLOCK IN CONGRESS SUGGESTING NEVERTHELESS THE POSSIBILITY OF EXTENDING CREDIT FOR OTHER NECESSITIES OF THE GOVERNMENT SO THAT IT CAN WITH ITS OWN FUNDS SUPPLY FINANCIAL BACKING. Dominican Republic Subversive Activities - S

From a strictly confidential source it has been learned that the Spanish Government stated on June 3, 1943, that the above-captioned subject has made arrangements to be present at the Dominican Republic Centenary celebration as a gesture of respect to the President of the Dominican Republic who is stated to have made that country a suitable place in which the ashes of the Admiral might repose. It is further reported in connection with the subject's visit that she intends to exhibit certain documents from the Colombian Archives which are said to be connected with Santo Domingo.

The above information is forwarded for your assistance in connection with the investigations of Spanish activities in the Dominican Republic.

PERSONAL AND CONFIDENTIAL
BY SPECIAL MESSENGER

Honorable Adolf A. Berle, Jr.
Assistant Secretary of State
Department of State
Washington, D. C.

Dear Mr. Berle:

Through a confidential and reliable source it has been reported that on June 21, 1943, President Trujillo of the Dominican Republic transmitted a message to Consul Nouel, Miami, Florida, in which it was stated that "our" information service in Venezuela, Puerto Rico, Cuba and New York has advised that "our" enemies will meet in Miami. It was also indicated that the names of those to be present were secured. The message then requested that Consul Nouel be on the lookout and keep the sender of the message posted.

This confidential source also reported that another message dated June 21, 1943, apparently in reply to the above message, was transmitted from Consul Nouel to President Trujillo. This message set forth that President Trujillo's instructions would be carried out and that Consul Nouel was sending to President Trujillo a confidential report on "that matter," which report would be delivered by a Dr. Baez.

It would be appreciated if you would advise me of any information which you might have which would explain the meaning of the above messages, specifically any facts concerning an information service maintained by the Dominican Republic in Venezuela, Puerto Rico, Cuba and New York, and any data relative to a meeting

Mr. Tolson held in Miami by persons who are referred to in the message as
Mr. E. A. Tamm "our enemies." It is further noted that a Dr. Baez is to carry a
Mr. Clegg confidential report from Consul Nouel at Miami to President Trujillo.
Mr. Coffey It would be of interest to know who Dr. Baez is and the nature of
Mr. Glavin the contents of the confidential report he is supposed to carry to
Mr. Ladd the Dominican Republic.
